Ideation Phase
Empathize & Discover

Date	31 January 2026
Team ID	Individual
Project Name	EV Market Performance & Sustainability Analytics
Maximum Marks	4 Marks

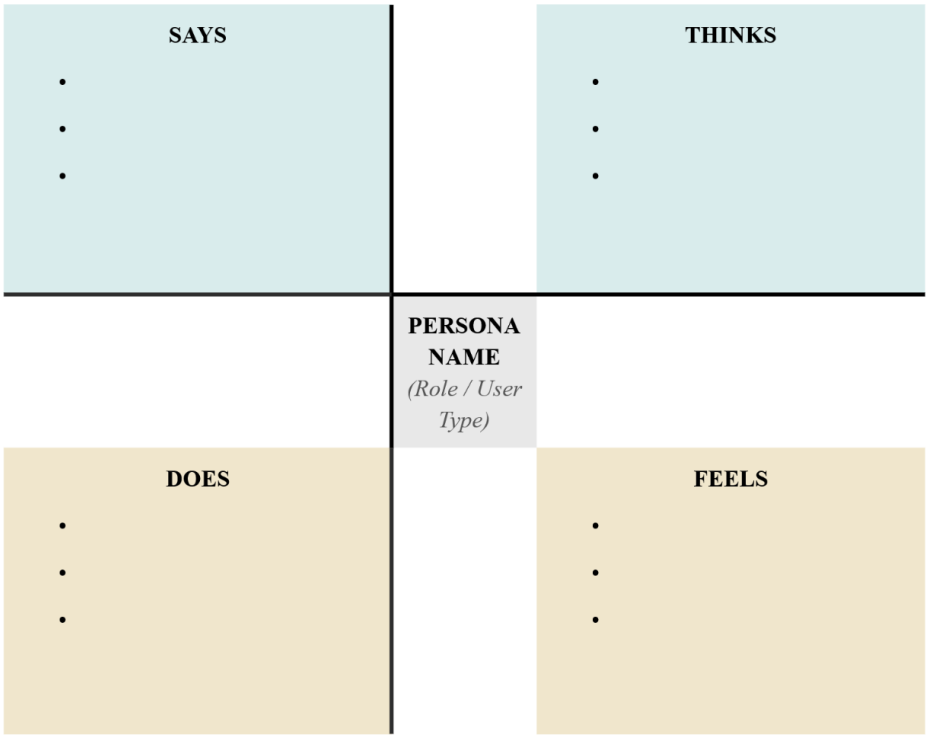

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Completed Empathy Map: EV Market Strategy Director

Persona: Emily Johnson | Role: Market Strategy Director

Goal: Make informed decisions about EV sales segments, battery technologies, manufacturer performance, and market opportunities.

SAYS	THINKS
• "I need a clear view of which EV categories contribute most to sales." • "I want to compare battery technologies before setting product priorities." • "The dashboard should be easy to filter by year, country, and category.	• Which vehicle segments show the strongest sales contribution? • Which battery technologies are most represented in this dataset? • Can one dashboard help me make decisions faster?
DOES	**FEELS**
• Reviews sales trends and category performance. • Compares manufacturing countries and manufacturers. • Uses filters and charts to investigate market segments. • Shares findings with planning and product teams.	• Overwhelmed when information is spread across many fields. • Wants confidence that comparisons are based on reliable measures. • Values clear visuals and quick, evidence-based insights.

Key need: An interactive, reliable Tableau dashboard that combines EV sales, vehicle categories, battery technology, manufacturer comparisons, driving range, and CO_2-related metrics in one place.
